# Code · Develop · Succeed

Redefining Computer Science Education: Your Path to Dream Tech Jobs

\* Note: IST is an upskilling program, The B.Tech degree is awarded by UGC recognised University.

## Build Your Future in Tech with

# Industry-Driven Program

**Welcome to IST, where you don't just learn, you build.**

From Day 1, you work on real projects, think practically, and explore entrepreneurship. Our focus is simple: to develop engineers who think independently, adapt to AI-driven change, and lead real-world innovation. If you're ready to take ownership of your future, you're in the right place.

**Welcome to the next generation of engineering!**

## Diwakar Chittora

Founder & CEO, IntelliPaat

# Features of IST

## AI Age Curriculum

Curated by Tech experts from Product Companies

## Learn from Industry Experts

Your teachers are Industry experts & SMEs

## Earn a B.Tech degree

Earn a degree from UGC Recognized university

## Get Minor from IIT Patna

Learn from IIT Faculty, earn 20 credits & campus immersion

## Get Certified by Microsoft

Earn Microsoft Certification & learn from Microsoft SMEs

## Internship & Placement

12-Month Internship + Placement Support with 3100+ Companies

## Innovation & Entrepreneurship Hub

Innovate & learn how to pitch your ideas to investors

## Study Abroad

Complete MS in the EU, US in just 12 months

## Create Products that Matters

Build products that solve real world problems

## Immersive Learning Visits

Visits at MAANG Companies & top startups

## Gen Z Campus

Learn, Innovate, Enjoy, Relax, Play & Dance!

## Global Immersion & Alumni Network

International Innovation Visits & Strong Alumni Connect

# Awards & Recognition

CXO Today

Elets StartUp Awards

Times Business Awards

Economic Times

Quantic India

Global Brands Magazine

Intellipaat is one of only 13 companies from India featured in the prestigious global GSV 150.

## Elite Academic Partners

**Microsoft**

**EC-Council**

## About IIT Patna

IIT Patna is one of India's premier IITs, known for cutting-edge research, academic excellence, and a strong focus on innovation.

- ✓ 20-credit Minor Program from IIT Patna
- ✓ 2-day campus immersion at IIT Patna
- ✓ Masterclasses by IIT faculty
- ✓ Exposure to elite research ecosystem

# What Industry Leaders Say About IST Students

“

## Entrepreneurial Thinking

Beyond jobs—students are building ideas and solving real problems. That’s the mindset the industry truly needs.

**Sumeet Ambastha**  
Senior Data Scientist at Microsoft

“

## Strong Tools & Tech Exposure

Their early exposure to modern tools and practical environments using AI tools, development stacks, and collaborative workflows—sets them apart with a level of confidence rarely seen at this stage.

**Snehal Kunjir**  
Technical Leader at Cisco

“

## Builder Mindset!

What stands out is their focus on execution over theory. Even early on, students are consistently building real-world projects and engaging in hackathons.

**Arun Ravi**  
Engineering leader at Amazon

“

## Ahead of Curve

Even in their 2nd semester, IST students are already working with modern tools and real-world workflows that most engineers only see in their final year. The curriculum is clearly designed with current industry needs in mind.

**Alok Kumar**  
Director UX at Myntra

## MacBook from Day 1

Each IST student is provided with a brand - new MacBook to aid their learning experience, pre-loaded with development tools, IDEs, and software environments.

# Curriculum

## B.Tech in Computer Science & Engineering (AI & ML / AI & DS)

### YEAR 1

#### Build solid Foundations on Web Development, DSA & AI

Start with foundational programming in OOPs, Python, web development, and Generative AI. Learn and master full-stack MERN development while building a strong mathematical foundation for data science. Advance through DSA, Agentic AI, and other modern technologies while building real-world applications. Develop strong communication and leadership skills through dedicated personality development modules.

### YEAR 2

#### Build Smart Systems using Adv. DSA & AI

Deepen your understanding of systems and backend development while building machine learning models and working with LLMs and advanced AI technologies. Develop AI and ML applications using modern architectures such as RAG and vector databases to power intelligent systems. Build scalable products while strengthening your entrepreneurial skills to launch and monetize startups.

### YEAR 3

#### Master Deep AI build Innovative Products

Explore Gen AI frameworks, Deep Learning, computer vision, Prompt Engineering & Robotics. Get hands-on with DevOps, Cloud tools, and MLOps. Focus on leadership development, software engineering principles, and complete a major AI-based project.

### YEAR 4

#### Gain Real World Experience & Crack Top Companies

Begin your internship to gain industry exposure. Get placement-ready with industry mentorship and practical project experience. Graduate with Full Stack, AI & ML expertise and the skills to crack top product companies or build top startups.

### 25+ Tools & Technologies to Master

Python

# 20+ Startups Built by IST Students

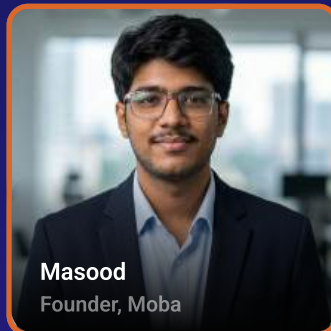

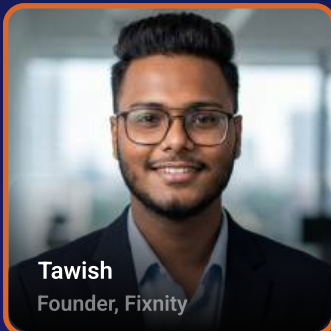

From 50+ Ideas to Real Ventures

50+ Ideas

30+ Prototypes

20+ Startups

At IST, 1st Year Students Build What Most 4th Years Couldn't

## What Students Actually Did

50+ Ideas → 30 Selected for Founder's Review

1:1 Mentorship from Industry Founders

Build Real Tech Products (POCs)

Access to ₹10 Cr Startup Investment Pool

# Hackathons @ IST

2 IST teams among 70 finalists  
(from 68,766) at SIH 2025 – competing  
with final-year IIT & NIT students

**#SmartIndiaHackathon2025**

World's Biggest **Open Innovation Model**

"Today, the world recognises India's strength in its youth power, and this is clearly visible in Smart India Hackathon"

# Admissions

## Eligibility Criteria

- ✓ Candidate who have completed Class 12 and scored minimum of 55% are eligible to apply. The graduation year should be 2024, 2025 or 26.

## Admission Process

- STEP 1** Submit the Application Online
- STEP 2** Take the IST Entrance Exam (ISTEE)
- STEP 3** Pass the IST Entrance Exam & get offer letter
- STEP 4** Finalise your Admission

## Scholarships @ IST

### Merit-Based Scholarship

This scholarship is aimed at high-achieving students who have consistently excelled academically and demonstrated a commitment to their major.

### SheTech Scholarship

The SheTech Scholarship is IST's dedicated initiative to encourage and empower women to break barriers and pursue successful careers in technology.

## Flexible Financing Options

# Life @ IST

**Independence Day**

**Meeting Cricketer Ishan Kishan**

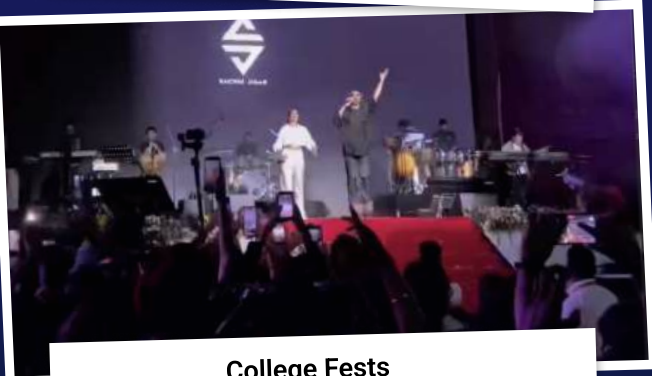

**Adventure Treks**

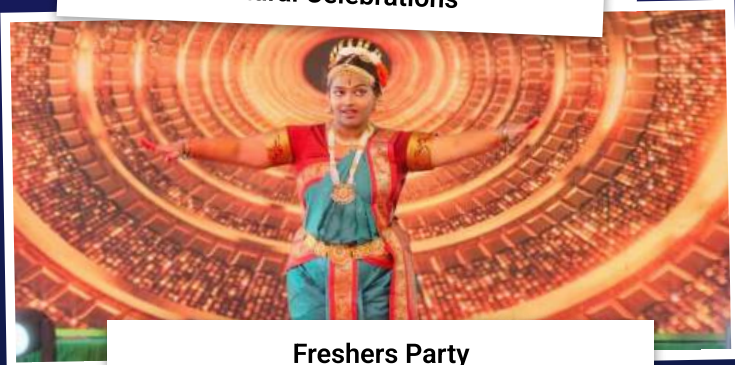

**Industry Visits**

**Cultural Celebrations**

**College Fests**

**Freshers Party**

**Built and Flew Drones on Day 1**

**Dandiya Night**

# The 4 LPA Trap is Real

Most graduates struggle not because of lack of degrees, but lack of real-world skills.

**15 Lakh** Engineering Grads / Year

**5%** Employable

**2%** Land Top Software Jobs

## The 4 LPA Trap

For 25 years, the average engineering salary in India has been stagnant, creating a cycle of limited opportunities.

## You Deserve Better

A traditional B.Tech is just the beginning. The future belongs to those who can adapt, innovate, and create. At IST, we shape engineers into future-ready tech leaders.

## Our Solution: The IntelliPaat Transformation

**Learn from Industry Leaders**

**IntelliAIMentor – Your Personal AI Mentor**

**Build Entrepreneurial Skills**

**Strong Foundation & Research with IIT Faculty**

**AI-Age Curriculum-Built for 2030 and Beyond**

**Build Real-World Products that matters**

## The Outcome: A Career of Impact

**100%**

Our learners secure top tech roles, evolve into future leaders, and launch their own entrepreneurial journeys.
